

INITIAL PROJECT PROPOSAL

Brand Identity Strategy, Tagline Creation & Website Architecture

Proposal Focus: Business Name, Taglines & Logo Design (Phase 1)	Primary Location: Coimbatore Office Hub & Remote Setup
Target Audience: B2B / Business Outsourcing Clients	Estimated Schedule: 4 – 6 Weeks (Phased Rollout)

1. Project Overview & Primary Objective

The primary focus of this initial proposal is to establish a strong brand identity by finalizing the **Business Name**, crafting a compelling **Brand Tagline**, and designing a professional **Logo Package** for your expanding agency. Previously operating under **Roughclick** for photography, the business is now expanding into website development, custom web applications, and social media services. Headquartered in **Coimbatore** with a distributed network of specialists, the web platform will serve as your digital portfolio to showcase services to business clients and enable regular blog updates.

2. Primary Focus: Business Name, Tagline & Brand Identity (Phase 1)

- **Evaluating 'Roughclick':** Review whether to retain and reposition *Roughclick* for digital services or transition to a dedicated tech brand name.
- **Alternative Brand Concepts:** If 'Roughclick' is deemed too specific to photography, we will curate 3–5 premium alternative business name concepts.
- **Brand Tagline Concepts:** Crafting memorable, high-impact taglines aligned with each business name concept (e.g., *'Click to Code, Vision to Value'*, *'Innovating Digital Futures'*).
- **Vector Logo & Brand Identity:** Upon business name and tagline selection, a professional logo, visual identity assets, and brand guidelines will be developed.

3. Brand Theme & Visual Direction

- **Color Palette & Typography:** Establish a cohesive primary/secondary color scheme and typography hierarchy based on the approved logo.
- **UI Design Style:** Modern layout direction, responsive styling, and clean visual elements tailored for B2B client conversion.

4. Proposed Website Structure & Pages

- **Home Page:** Brand introduction with tagline, value proposition, core service highlights, and calls-to-action.
- **Services Page:** Presentation of digital offerings (initial service structure to be updated based on client input).
- **Blog Portal:** Dedicated content hub with a streamlined publishing workflow, allowing easy article posting from desktop or mobile devices on the go.
- **[Suggested Addition] Contact Page:** (*Recommended*) Lead capture inquiry form, Coimbatore office details, direct WhatsApp chat integration, and map location.

5. Initial Services Showcase (To Be Updated)

Note: The service listing below represents initial inputs and will be formally updated once the detailed service list is finalized:

Initial Service Pillar	Description & Deliverables (Draft)
Website Development	Static corporate sites, dynamic web portals, and SEO-optimized website development.
Custom Applications	Custom web applications, dashboards, and specialized digital software solutions.
Social Media Strategy	Annual creative social media content creation and brand asset design.
Social Media Post Updating	Regular post updates, maintenance support, and ongoing social media management.

6. Technology & Optimization

The site will be developed as a modern, responsive custom web solution with clean UI interactions, fast loading speeds, SEO-friendly architecture, and a simple admin publishing workflow enabling hassle-free blog updates from any device.

7. Project Execution Approach (8 Phases)

Phase	Key Milestones & Scope	Est. Schedule
Phase 1	Business Name & Tagline Finalization (Main Focus)	Week 1
Phase 2	Logo & Brand Identity Design (Main Focus)	Week 1–2
Phase 3	Website Theme, Color Palette & Design Direction	Week 2
Phase 4	Finalizing Website Structure & Updated Service List	Week 2–3
Phase 5	Core Website Development (Home, Services, Contact)	Week 3–4
Phase 6	Blog Portal & Publishing System Integration	Week 4–5
Phase 7	Testing, Performance Tuning & Responsive Optimization	Week 5
Phase 8	Client Review, Final Revisions & Handover	Week 5–6

8. Initial Deliverables & Next Steps

- **Immediate Deliverables (Phase 1 & 2):** Finalized Business/Brand Name, Tagline, and Professional Vector Logo.
- **Subsequent Deliverables:** Updated Service Catalog, Website Visual Identity, Responsive Web System, Blog Portal.

Important Note: Business name, tagline, and logo design will be finalized prior to starting website UI design because the brand identity directly drives the website's visual theme, colors, and graphics. Detailed features, final service listings, and project timelines will be confirmed upon approval of this initial proposal.
